

 Two-Factor Authentication (2FA)

Two-Factor Authentication enabled successfully!

 **2FA is currently ENABLED** — Your account is protected with an authenticator app.

Disable 2FA

Disabling 2FA will make your account less secure.

 Disable Two-Factor Authentication

Recovery Codes

Recovery codes let you log in if you lose access to your authenticator app.

 Regenerate Recovery Codes

 Save Your Recovery Codes

Store these codes in a safe place. Each can only be used once. If you lose your authenticator, these are your only backup.
